

Coaches:

- We are using “Chip Timing” today – and no bib numbers. It is important that:
 - Each runner is given the correct chip
 - They attach it securely to a shoelace. If they finish the race without the chip, they will not be included in results.
- It is your responsibility to return all chips from your runners that did not compete or did not finish the race to the finish line.
- A \$10 fee will be charged for unreturned chips

Runners:

➤ Before the race:

- Securely tie two holes of the orange chip into the shoelace of either shoe... double knot the lace. It is your responsibility to finish the race with the chip. You will not be included in the results if you do not!

➤ After the race:

- Remove your chip in the bullpen and place in the container
