We have made some changes for this year's meet so please make note... We will be having a little falcons fun run this year for all kids under the 7th grade who would like to run a mile fun run. Also we have taken out the reserve races and combined them with the varsity race. So we will have two middle school races and two high school races. All races will be unlimited entries. Also because of some construction on the course area we had to change the course so it would probably benefit you on the day of the meet if you gave yourself extra time to come walk the course.
