#7 – Maintenance barn area

#9 – The concrete/black top areas behind the green, club house area, and cart storage barn are now considered out of bounds. There will be white stakes marking the beginning of the out of bounds at the end of #9 cart path and again at the beginning of the cart path leading to #10. If your ball passes the stakes and enters these areas it is considered out of bounds and you must play a ball, **under penalty of one stroke**, as nearly as possible at the spot from which the original ball was last played (see Rule **20-5**).

#14 – If your ball is over the back of the green and enters the *lateral water hazard* you will have to go to the nearest drop zone and will be assessed a **one stroke penalty**. There are drop zones to the back left of the green and to the right of the cart path right of the green. If your ball enters the *lateral water hazard* to the right of the green and cart path you must proceed under “*Lateral Water Hazard*” rules listed below and will be assessed a **one stroke penalty**. Also, if your ball comes to rest on the cart path in the section between the green stakes you are entitled **free relief** and must go to the nearest drop zone. If you are willing, you may play your ball off of the cart path.

Lateral Water Hazard – RED Stake Options

1. Play the ball as it lies without penalty (Rule 13-1).
2. Proceed under the stroke and distance provision of Rule 27-1 by playing a ball as nearly as possible at the spot from which the original ball was last played (see Rule 20-5).
3. Drop a ball behind the water hazard, keeping the point at which the original ball last crossed the margin of the water hazard directly between the hole and the spot on which the ball is dropped, with no limit to how far behind the water hazard the ball may be dropped.
4. Additional options available **only** if the ball last crossed the margin of a lateral water hazard, drop a ball outside the water hazard within two club-lengths of and not nearer the hole than (1) the point where the original ball last crossed the margin of the water hazard or (2) a point on the opposite margin of the water hazard equidistant from the hole.
