

Instructions for Competitor Numbers

Everyone, this is a super easy method to run meets, I picked it up from my brother, who coaches in Kentucky. They do all their meets, including the state meet using this system.

Steps:

- 1.) Print off your schools list of numbers
- 2.) On the day of the meet put the competitor number (not the roster number) on the right hand of **all** your athletes in sharpie. Write it so you can read the number but it is upside down to them.
- 3.) That is it. The number is what we will use to enter them into the computer. Super simple!

If you have questions email me or find me at the meet. I will meet with you all before just to make sure there is no confusion.
