To: Coaches & Bus Drivers headed to the George Gross XC Invite @Valley View Woods

PLEASE HAVE YOUR DRIVER READ THIS INFO SO THAT YOU CAN MAXIMIZE YOUR TIME ARRIVING AT THE MEET! DEPENDING ON WHAT ROUTE YOU WILL BE TAKING COULD INTERFERE WITH YOUR PROMPT ARRIVAL TIME...

“As a follow up to our Pre Construction Meeting and previously approved work scope, and for the coordination with your senior staff and council, please see the following updated regarding the construction for the Canal Road Storm Culvert Failure Repair Under the Ohio & Erie Canal

Fabrizi Trucking & Paving will commence with construction for the Canal Road Storm Culvert Failure Repair Monday 10/2/2023.

The Canal Road Storm Culvert Failure is located between Hillside Road and Hathaway Road and will required the contractor to remove a portion of the guardrail to access the sewer repair under the Ohio & Erie Canal.

The work scope will be performed utilizing temporary traffic signals and two way traffic will be maintained utilizing one lane at all times.

Expect lengthy delays especially during am and pm high volume events.

Work will take place between 7 am and 5:30 pm daily and the electronic message boards state the work scope will be completed between 10/2 & 10/20.

The temporary traffic signals will remain in place in evenings and weekends since the guardrail will be removed for this repair.

Please pass on the information to the OIC's and internal staff for continued communication, along assistance in answering any resident questions.”
