

OHSAA Cross Country Tournament Participation Form

The OHSAA Board of Directors semi-annually determines the representation from each district based upon the number of teams actually participating in the district tournaments. **Schools with 5 or more individuals that finish their race are counted as a team.** After the tournament is finished, use the **Athlete / Entry Count** report in **Hy-Tek** to generate the **OHSAA Tournament Participation Reports**.

1. The **Athlete / Entry Count** report will accurately account for all individuals that actually participate.
 - a. Reports generated in **Hy-Tek MM 5.0** and **Hy-Tek MM6.0** exclude athletes that have either **SCR** or **DNS** as a result
 - b. Reports generated using **Hy-Tek MM 4.0** or earlier will not be accurate unless the individual is actually scratched.
2. **After all results have been entered and while still in Hy-Tek:** use **Reports | Schools | Athlete / Entry Count | Select Gender | Sort: School name or Male/Female Team Size | Create Report**

3. From the **Preview Screen** | click **Print** or **Export | Adobe Acrobat PDF | Ok | Ok** to save the file.
4. **Save** with a descriptive file name: **Participants Dayton II Boys** or **Participants Dayton II Girls**, etc.

Print/Export Reports

Copies: 1 Print directly using the following printer: HL-5240-5

100%

Please Note:

1. The **Not Scratched** column will include all athletes that have marks listed in either an individual event or relay. For **OHSAA** counts, only **SCR** or **DNS** cannot be used.
2. The **Competed** column only includes athletes that have marks in individual events.
3. **To be 100% accurate for the OHSAA Participation Report**, athletes or relays that do not start an event must be deleted in the **Run** menu after a mark of **DNS** is imported from the timing system, the athlete or relay can be deleted by double-clicking.
