

Timing Notes – Malone CC Invite

- Distribute the correct competition bib to the assigned contestants. All of these numbers must match on each separate competitor. **The wearing of incorrect contestant numbers during competition may result in disqualification.**
- **PIN ALL FOUR CORNERS OF THE BIB NUMBER AS HIGH AS YOU CAN ONTO THE FRONT OF THE SINGLET**
- This year athletes will be given a disposable SHOE chip. Instructions to place the chip on the shoe is on the actual chip. The chip **MUST NOT** be pressed flat. This will cause a no-read. Twisting or bending the chip will also cause the chip to fail.
- There is a YouTube Video to show how to attach the D-Tag (<http://www.youtube.com/watch?v=GEww-qXrzEg>)
- Instruct your athletes to **run past** the finish line at the end of the race, and continue to move through the finish chute into the competitor recovery area. Once the runner's torso crosses the finish line, the order of finish is determined. It is not necessary to maintain that order of finish in the finish chute. Athletes are requested **NOT** to look at their watches as they cross the finish line, this will block the head on camera and slow the results process down. Once the athlete clears the orange and blue mats they can look at their watch.
- Results will be posted on <http://www.baumspage.com> and www.deltatiming.com
