

Buses may enter the park from the Coe Street or Summit Street entrance. There are 2 designated bus unload/load areas along the "circle" in the park if you use the Coe Street entrance.

The unload/load areas are the ONLY places buses will be allowed to unload or load your bus within the park. We must keep traffic moving. You may NOT stop on the street or along the street inside the park at any time to unload or load your bus. Schools will be fined for buses that are stopped and unloading or loading along the street.

No matter where you unload you will then proceed up Summit Street to one of several parking lots for buses at National Machinery. There will be parking attendants guiding you on where to park your bus. There are restrooms for your use at the baseball field at National Machinery. After parking you may walk back to the park. There is a hospitality section inside the barn (located near the pool) for bus drivers with coffee, juice and donuts along with plenty of picnic tables to sit.

Gas stations that sell diesel fuel:

Circle K - 272 N. Sandusky St.

Mobil - 247 S. Sandusky St.
