

Coaches:

We are going to try to do something different this year. Since we host on the last Saturday of the season and since most cc kids don't get what they deserve, we **will be hosting a "senior night" for any attending teams that want to participate**. We are all one community and frankly senior recognition at a football game is not giving these kids the appreciation they deserve from the people in THEIR community.

If you return the attached form with your seniors info by Thursday at noon we will recognize your seniors at 9:15 before the start of the middle school races. If we have too many we will delay the start of the meet and I will post an updated schedule with more time allotted by 1pm Friday. I have no idea how this will go. I just think we could really do something neat for ALL our kids with this since it is the last weekend of the regular season.

Please just scan the forms and email to me asap and if you need to just type in the info and send it do so. But please make it clear and neat. We don't want to mess things up!
