Track Wrestling and Baumspage

Please note: <u>Baumspage</u> and <u>Baumspage Wrestling Application</u> will be used to coordinate the transfer of data from online entry to the state tournament.

- 1. Sectional entries and seed nominations are due at **7:00 PM on Thursday** and wrestlers will be locked in their weight classes at that time.
- 2. All data will be transferred electronically.
- The sectional tournaments will use whatever software they select but will import the teams and wrestlers from the <u>Online Entry System</u> and export the advancers for the district tournaments.
- 4. Barring complications, the **Baumspage Staff** will coordinate the transfer of qualifier data and post the district tournament brackets and participant files on <u>Baumspage</u> on Saturday night after the sectionals finish.
 - A. For sectional tournaments that use **Baumspage App**, the coach's names, school names/school ID, and all wrestler data will transfer automatically when the final results are posted.
 - B. For the sites that use Track Wrestling and other software:
 - 1) The advancer file will be converted to the format needed for the **Baumspage App**.
 - 2) The coach and school data will be added when the district qualifier file is processed.
- 5. The OHSAA does a random draw for all district tournaments when the pairings for the state tournament are drawn.
 - A. Wrestlers that finished in the top 3 at the OHSAA State Tournament the previous year will be separated at the district using the same seeding policies as the state tournament.
 - B. The baumspage staff will create a macro-enabled Excel file: **DistPairTrWre.xlsm** with the parings for the district tournament.
 - C. The macro will create a worksheet that is saved as a CSV file **DistPairTrWre.csv**, **o**pened in **Notepad**, and imported into **Track Wrestling**.
 - D. We will send the district pairing formula for import into **Track Wrestling** to the computer support people after the brackets are posted on Baumspage.
 - E. Follow the instructions below to prepare **Track Wrestling** for the import of the pairings, teams, and wrestlers.
 - 1) **Track Wrestling** changed its policy and no longer requires an import ticket to upload external data.
 - 2) You will be able to upload the pairings, teams, and wrestler data from a spreadsheet as a comma-delimited CSV file.
 - 3) The **Track Wrestling** file with the wrestlers assigned to the bracket will be exported from the **Baumspage App** after the brackets are set.

6. To preserve the accuracy of the data for the state tournament, all districts need to have someone designated to generate files and enter data using the <u>Baumspage App</u>.

- A. The computer support person will need to log in to **<u>Baumspage</u>** to access the data.
- B. They will use the **Baumspage App** to generate the files listed below and will use **Track Wrestling** to run the tournament.
 - 1) Weigh-in (by Weight Class) alternates included at the bottom. *See <u>Samples</u>

- 2) Alternates by Site includes records. *See Samples
- 3) Check-in/Corrections Sheets includes alternates. *See <u>Samples</u>
 - Have each coach review and correct all names, grades, records, including their name before they sign and return the sheet.
 - Make corrections in the program before the tournament begins.
- 4) **Team Summary PDF** for the program if desired. *See <u>Samples</u>
- 5) **Export Wrestlers(TrW Format)** is the file you will use to import the wrestlers.
- 6) **Export Teams(TrW Format)** is the file you will use to import the teams.
- C. As matches are completed, enter the scores or times from the Track Wrestling data.
 - 1) If you have internet access and you are logged in to your account on baumspage, the brackets and complete results will post automatically every five minutes.
 - 2) When the tournament is finished all qualifier data including coaches will be uploaded to the server automatically and imported directly into the programs used for the State Tournament.
- 7. Please follow the instructions below to prepare **Track Wrestling** for the import of the pairings, teams, and wrestlers
 - A. Thanks to John Wagner for providing the **Track Wrestling** information.
 - B. And my son, Toby Baumgartner, for modifying the <u>Baumspage App</u> to include Export Wrestlers(TrW) and Export Teams(TrW) buttons and generate the import files.

Track Wrestling Setup

- 1. The tournament format in Track Wrestling should be a Predefined Tournament.
- 2. Left>settings, scroll down to qualifying tournaments setting and change to Yes.
 - **Do Not** change the matrix application. Should be standard.
- 3. For 2024 Trackwrestling changed the ability for managers to change the default template. This is what allowed managers to change the information that is on the lines of a bracket. For district tournaments the site code **LC-1**, **RE-4**, etc. and team name should be included.
- 4. Until that option is restored, the best option is to copy the brackets from the 2024 Perrysburg District.
 - Please call John Wagner if you plan on importing his brackets so you can talk about what that will do.
 - He will need to change the setting to allow that to happen. It is currently set to block you from importing.
 - You will need to check the rounds because those will be set to the way the Perrysburg District is run.
- 5. Follow the steps below to add the matrix and import the pairings, teams, and wrestlers.

Adding Qualifying tournaments to Track Wrestling

- 1. Go to left menu>importing
- 2. Red links at the top, click on qualifying tournaments
- 3. Add your 4 qualifying tournaments. In the pop-up only, type the tournament abbreviation. Then change the qualifying places to 1-4

	Ref Menu Setup Reg	istration Bracketing Operating Get Help FAQs To Do List	
		Qualifying Tournaments	
	Import Tournament Info	Qualifying Tournaments Import Wrestlers Tournament Lines	
	Add Qualifying T	ournament Add as Seed Criteria Assign Criteria Values

CL (not started)	No Event Selected GET CLEAR	<u>1-4</u>	Delete
<u>SE</u> (not started)	No Event Selected GET CLEAR	<u>1-4</u>	Delete
ST (not started)	No Event Selected GET CLEAR	14	Delete

Adding Matrix to Track Wrestling

- 1. Go to Left Menu>Importing
- 2. Red links at the top
- 3. Click on Tournament Lines
- 4. Click Add Line 14 times to give you 14 Lines (lines are for each bracket). Line 1 is 106, Line 2 is 113, and so on
- 5. Select only the information for 106 and copy it
- 6. After you have added all the lines, open the **DistPairTrWre.csv** file in **Notepad.**
- 7. Paste it into the text box.
- 8. Repeat for the other weight classes.

9. Then, back in Track Wrestling, click on the edit line button next to line 1

10. Click on **Upload Details**

11. Paste info that was copied into the dialog box that opened.

	oprodu Ente Dotan	
Qualifier, Qualifying P	lace, Seed	
AR,1,1 F0,4,16 PL,3,9 ML,2,8 PL,2,5 ML,3,12		•
	Upload	
	Cancel	

12. Click on Upload

13. Repeat above steps copying each weight class' info into each of the 14 lines.

Line 1:	106	Line 8:	152
Line 2:	113	Line 9:	160
Line 3:	120	Line	170
Line 4:	126	Line	182
Line 5:	132	Line	195
Line 6:	138	Line	220
Line 7:	145	Line	285

Applying Matrix to Track Wrestling to build brackets

- 1. Log in to event and go to Left Menu>Importing
- 2. Click on Tournament Lines
- 3. Click Apply Matrix
- 4. Click on all 14 lines to add a checkbox next to each*
- 5. In the "Start at:" drop down, choose Line1*
- 6. Choose all weight classes *
- 7. Click Apply

To import the teams and wrestlers:

- 1. It's important that you have <u>NOT ENTERED YOUR TEAMS INTO THE TOURNAMENT</u> <u>PROGRAM</u> as spelling differences will cause you major problems.
 - A. You must use the team names from the Baumspage Download so they will match the OHSAA Team Names when you export the qualifiers and alternates after the tournament.
 - B. The team file must have three fields: Team Names, Team Abbr, State Abbr
 - Example: Buckeye, BUCK, OH
- Click Export Teams(TrW) and save bpTeamsTrW.csv in your download folder or desktop.
 Although the file will open in Excel, do not save it in Excel!
- 3. In Track Wrestling, go to Teams > Upload Teams
 - Select "," for Delimeter and Team Names, Team Abbr, and State Abbr for the three columns.

• Open **bpTeamsTrW.txt** in **Notepad** and **paste it into the text box**.

- 5. Click Export Wrestlers(TrW) and save bpWrestlersTrW.txt in your download folder or desktop
 - In Track Wrestling, click Setup > Wrestlers > More > Upload Wrestlers.
 - Select "," for **Delimiter** and **Weight Class, Last Name, First Name, Team, Grade, Wins, Losses, Qualifying Tournament**, and **Place** for the nine columns.
 - Open **bpWrestlersTrW.csv** in **Notepad** and **paste it into the text box.**
 - Use the **column dropdowns** to tell the importer which field each column of your file contains.

								Upio	au	vvrestie	ars							
wrestlers v upload elimeter	Column 1	fully	Column 2	~	Column 3	,	Column 4	Column 5	~	Column 6	~	Column 7	Column 8	~	Column 9	~)[olumn 10	8
	vveight class	•	Last Name	•	[Pirst Name		•][leam	•][Grade	Ť] [yours	~	Losses	▼ 11	-		•10		

- Click Upload. *Do not click it more than once! Give it time to complete!
- You will see a message with the number of wrestlers successfully uploaded.
- Click **Registration > Wrestlers** to verify.

Sample bpTeamsTrW.txt (opened in Excel with Headings) *Headings not included in Upload.
