(c)2014-2015 baumspage.com  
v11.30.15

This application is designed as a mobile application that will run in most of the web browsers currently available. The application runs equally well on PCs in the **Windows environment** and on the **Macs**. At the present time, only **Google Chrome** has been **fully tested and will be supported!** If you don't have **Google Chrome** installed, download and install it from the **Google** website: <https://www.google.com/chrome/>.

An **internet connection is required to download data prior to the start** of the tournament and **to upload results after the tournament**. If an internet connection is available during the tournament and the user is logged in to their account on [www.baumspage.com](http://www.baumspage.com); the application will automatically sync with the file server and upload brackets, results, and incremental backups to the server every five minutes. **Pools** and **Results** can also be posted with one click of the **Post to Baumspage Button**.

At the conclusion of the tournament after all results are verified, one click of the **Post Final Results to Baumspage** will upload all the data files. This will include **Completed Pools**, **Complete Individual Results**, **Team Scores**, **AP Style Results** (for the newspapers), and a **Complete Backup** of the tournament data.

If an **internet connection is not available** during the tournament, the **application will run in the browser's cache**. Make regular backups, copy data to a USB external drive, and post results from a different computer. When you connect after the tournament, log in and use the **Post Final Results to Baumspage** option.

The **Mobile Application for Pool Tournaments** maximizes matches for wrestlers by integrating 5 different pool formats dependent on the number of wrestlers in each weight class. Weights with 13 to 16 will be 4x4 pools with semifinals and finals. Weights with 11 or 12 can be included in the 4x4 format or use either 4x3 or 3x4 pools. If 3x4 pools are used the 3 pool placers will advance to pools of 3 for 1<sup>st</sup> to 3<sup>rd</sup>, 4<sup>th</sup> to 6<sup>th</sup>, etc. If 4x3 pools are used the top 2 in each pool will be placed on a modified double-elimination bracket for 1<sup>st</sup> to 8<sup>th</sup> place and the bottom wrestler in each pool will be placed in a single elimination bracket for 9<sup>th</sup> place. Weights with 9 or 10 will be 2x5 pools with placers paired for finals. Weights with 7 or 8 will be 2x4 pools with options for either semifinal/finals or finals only. Weights with 6 or less will be complete round robins.

Scoring is flexible. The round robins in each pool can be scored using tournament scoring with winners receiving 2, 3, 3.5, or 4 points or dual meet scoring with a range of 3, 4, 5, or 6. Place points will be awarded when earned and the final rounds will be scored using tournament scoring. Byes in pools can be scored as decisions or forfeits and automatically awarded for each bye or only awarded once if the wrestler wins at least one match in the pool.

**One-day pool tournaments with 5 different formats require planning!** The **2x5**, **3x4**, or **4x3** formats require 6 actual rounds while the **4x4**, **2x4** with semifinals/finals, and **1x6** round robins only require 5 rounds. **After 3 rounds of pools, pool placers advance to a final bracket or set of pools.** Be prepared to take a break after 3 rounds to allow time to generate and distribute the second set of pairings. Tournaments that start with matches in weight class order until the break, must “work in” the extra round for the 6-round formats either before or after the break. **There is no “best” solution. Some tournaments move all weights requiring 6 rounds to the start of the first three rounds. If only a few 6-round weights, they can be “worked in” either before or after the break depending on the 45 minutes between matches.**

#### **Summary of Using This Application:**

- Please download and use **Google Chrome** to run this application.
- Although most features work in Internet Explorer, Mozilla Firefox, and Safari, at this time **only Google Chrome has been fully tested and will be supported!**
- You may use **Google Chrome** on either a PC using **Windows** or a **Mac**.
- You must enable pop-ups to print brackets! If warned about a pop-up blocker, select the radio button for enable pop-ups on [www.baumspage.com](http://www.baumspage.com).
- You only need internet access to download the data and post results. During the tournament, the application will use your browser’s cache.
- Add a bookmark to the following link: [www.baumspage.com/wr/mobmgr/mobmgr.htm](http://www.baumspage.com/wr/mobmgr/mobmgr.htm).
- There are six modules in the program. **One-click expands** and **one-click condenses** each module.
- Press the Information  keys for additional help.
- Check out and print the [Wrestling Manager Manual](#) for additional details and screenshots!

#### **The basic steps to manage a pool tournament are as follows:**

- Download the Online Entry data for your event.
- Verify the Event Settings. (Getting Started #5)
  - Define the number of places and bye scoring
- Print entry grid, rosters, and check-in and/or weigh-in sheets as needed.
- Seed and Draw Pools.
  - Print the pools for the program
- Print **Bout Sheets** and **Match Lists**.
  - Print the 1<sup>st</sup> three rounds of Match Lists for coaches (and program?)
  - Print the 1<sup>st</sup> round Bout Sheets
- Start the Tournament.
  - After wrestling begins, print the 2<sup>nd</sup> and 3<sup>rd</sup> round **Bout Sheets**.
- Enter the match results as the tournament progresses.
  - After three rounds of pools, break all ties and use **Advance Winners** to generate final-round pools or brackets.
- Print out & display Pool & Results pages (and more bout sheets for each next round).
- Upload the final tournament Results and Pools to be posted on [baumspage.com](http://baumspage.com).

#### **Getting Started:**

1. You must be a registered baumspage event manager (or delegate) with permission to use this application.
2. To get started, log in to your account on [www.baumspage.com](http://www.baumspage.com) and use **Managers | Wrestling | Data Downloads** | select your event | click **Get Event**
3. Preview **Seed Nominations Report** and then **Download TXT Seed Nominations**. Print for the seed meeting.

4. Select the radio button for Pool Tournaments and click the **Download to Event Manager**' button. Click 'OK' on the **WARNING!!!!...**

wrestling event data download

**Event Name:** Baumspage Sectional Sample  
**Location:** Baumspage Arena  
**City:** Baumspage  
**State:** Ohio  
**Host School:** Baumspage -- Baumspage  
**Manager:** Gary Raver  
**Event Date:** Friday, February 27th, 2015 at 6:00 pm  
**Registration Window Opens:** Saturday, November 15th, 2014 at 8:00 am  
**Registration Window Closes:** Thursday, February 26th, 2015 at 7:00 pm

**Download Options:**

- [Preview Seed Nomination Report] [Download HTML Seed Nomination] [Download TXT Seed Nomination]
- [Entry Grid] [Preview Entry Grid Report] [Download Entry Grid Report]

Try out the new Baumspage Mobile Wrestling Manager Application! Developed and tested using Google Chrome.  
 Although other browsers work, only Google Chrome is currently supported!  
[Open Baumspage Wrestling Manager](#) \*Currently requires an Internet Connection\*

Use the link above to re-open the manager (if you have already started an event).

Press the button below to download this event and restart the Wrestling Event Manager.

**Baumspage Wrestling Application** [Download Online Entries for this Event ID] [Download to Event Manager Now]

\* Warning: This will overwrite ALL current data and restart the Wrestling Event Manager!

**TWT Import**

CSV	[Preview TWT Import]	[Download TWT Import]
CSV	[Preview Track Wrestling CSV]	[Download Track Wrestling CSV]

- Your event data will be downloaded, and the **Mobile Manager Application** will load automatically.
  - You may see some text on your screen while the **Event Setup Wizard** loads.
  - Set the **Maximum Number of Seeds** and **Number of Places Scored** | click **Next Step ->**
  - Review the team list and print whatever else is needed | click **Next Step ->**
  - Change the abbreviations as desired. Make sure they are all distinct. | click **Next Step ->**
5. Use **Event Setup | Adjust Scoring Settings** to set scoring parameters. (See manual for details)
- Verify the number of **Award Places: Four, Six, Eight, or ALL**
  - Select and verify **Pool Meet Scoring Type: Bracket Tournament or Dual Meet**
  - Select and verify **Score Byes as (when pool is not full): Decision or Forfeit, No Points, or Decision or Forfeit** (Awarded only if the wrestler wins a match in his pool)
  - Use the slider bar On or Off to award multiple bye points if more than one bye in the pool.
6. On the **Event Setup** module generate and print the files needed for check-in. (See bottom right)
- Print the **Entry Grid** and **Roster List**. Note: Extra wrestlers will not be included on those lists until they have been assigned to an extra team.
  - If extra wrestlers are allowed use **Check-in/Corrections Sheets or Weigh-in (by Teams)** for check-in.
  - If weighing in by weight class, use the **Check-in/Corrections Sheets** to make corrections on the computer.
    - Right before weigh-ins begin, print the **Weigh-in (by Weight Class)** sheets.
7. Use **Event Setup | Edit Teams/Rosters** to correct names and weight classes.
- Select the team and make corrections as needed.
  - If there are extra wrestlers permitted in the tournament, they will be listed with their team on the check-in or weigh-in sheets as **UNA-Wrestler Name**.
  - Select the team in the dropdown and edit as needed. Click **Clear** to remove the varsity wrestler and **Rmv** to remove the extra wrestler. Click **Save Roster Changes**. Repeat for other teams.
  - When finished with all teams, click the Check Box for **"Team List & Rosters are corrected..."**
  - The click **Generate Extra Teams/Proceed to Seed & Draw Brackets**.
8. **Seeding & Drawing** module to draw the brackets.
- See manual for details
  - Make sure you select the **Pool Format** for each weight class
    - If **2x4** pools, the default is **to Semifinals**. The **to Finals** only give a final match for each place.
    - If 11 or 12 wrestlers, you can use **3x4, 4x3, or 4x4**. Be consistent and do all similar weights the same.
      - 3x4** goes into **4x3** pools for finals while **4x3** goes the modified double elimination bracket.
      - 4x4** goes to a semifinal/final bracket.

- c. Click to select the wrestlers to be seeded on the left | Drag them into the correct order on the right | click **Submit Seeds and Draw** | review the draw and click **OK/Save** | **Repeat** for all weight classes.
    - i. If there are extra wrestlers in the weight class, you may need to **Swap Two Lines** to separate them from their teammates or balance the pools. Extras should be distributed similarly to byes.
    - ii. Click **Swap Two Wrestlers**, then the cell of the first one, and finally the cell of the second one.
    - iii. When finished click **End Swapping** and **OK /Save**. Repeat for all weight classes.
9. When you finish the drawing, the **Matches & Scoring** module will load automatically.
- a. Click **Print Full Bracket Set** to generate for the coaches and program.
  - b. If the **Preview** screen does not load, there will be a message about **Enabling Pop-Ups** in the upper right of the address bar
    - i. You must select **Enable Pop-ups on Baumspage!**
    - ii. **Enabling Pop-ups** only must be activated one time. Everything should work after enabling them!
  - c. Use **Save Full Set** to generate HTML brackets and **Post Full Set to Baumspage** to post them directly to the server. \***You must have a live connection and be logged in to your baumspage account!**
10. After the draw is finished, click **Bout Sheets** button to print **Bout Sheets** and **Match Lists**. (See manual for details)
- a. Print the first three rounds of **Match Lists** for the coaches and bullpen staff. (May use in the program too.)
  - b. Print the first round of Bout Sheets and get ready to start the tournament.
  - c. If **Show** is on, times will only be displayed if the Bout Sheets are printed within 45 minutes of the eligible time.
11. To enter results, use the **Matches & Results** module. The mode must be set to **Scoring Mode**
- a. Click on the cell or the winner and enter match results. Bye points will be added automatically to all teams when the first result in a round is entered.
  - b. After the final round of the pools, break all ties by clicking on the cells of the tied wrestlers
  - c. When finished click **Advance Winners** to set the final placers of the round robins or next round.
12. Use the **Team Scores** module to adjust team points as needed.
- a. Click **Show Bye Points Calc** to see points awarded
  - b. Use **Edit/Adjust a Score** to record penalty points and make a note if desired.
13. Use **Manage Data to Backup and Restore** (See manual for details)
- a. If you have internet access and are logged in to your account on baumspage, the application will **Auto Sync** to the server and **upload a backup every 5 minutes**.
  - b. If you do not have an internet connection the application will run in the browser cache and will reload the current data whenever the application is started.
  - c. **Whether you have an internet connection or not, it is recommended that you make backups on a regular basis.**
  - d. Click **Backup/Save Current Data**
    - 1) Google Chrome will generate an arrow and display the file name in the lower left of the screen.
    - 2) The backup will be named incrementally with a (1), (2), (3), etc. in the filename.
  - e. To **restore** from an earlier backup, click on **Choose File** and browse to your download folder.
    - 1) Select the file and click **Restore/Load Previous Data**.
    - 2) Click **OK** on the **Overwrite Event Data** pop-up warning

## Mobile Wrestling Manager Application

Written by: Toby Baumgartner

This application is dedicated to my father, Gary L. Baumgartner, the founder of [baumspage.com](http://baumspage.com) and one of the first persons to ever write a computer program to manage wrestling tournaments. As a child of about 8-9 years old, I would “help” him by running the computer at wrestling tournaments. This was in the early 1980s, a time when personal computers were new and for many coaches, this was the first computer they ever saw. As a teenager, I made an allowance by running tournaments myself. Much of his knowledge and some of the same core logic that he developed 40+ years ago have found their way into this application.
