

OHSAA Ticketing

Given the Governor's order regarding capacity restrictions at venues, along with other rationale, the OHSAA will be utilizing HomeTown Ticketing for all levels of the post season events, in all sports.

Below is the overview of how this process will work:

- The OHSAA and HomeTown Ticketing will work collaboratively to set up each sporting event on the ticketing platform (www.ohsaa.org/tickets).
- Once teams are listed for an event, each athletic director for the participating schools of that event will receive an email with specific instructions and a personalized code for their team. This code will be shared with the participants families so they can login and purchase up to the allotted ticket amounts based on venue capacity limitations.
- Families will have a select time to purchase tickets, and that window will close prior to the event occurring. Therefore, because of the way the Governor's order is currently worded, **there will be no gate/walk up tickets sold.**

Please, review this information with your athletes and be sure they are aware of the new ticketing mandate by the OHSAA. The course will have a volunteer to scan tickets, but will be unable to sell tickets. **Those without tickets will be turned away.**

TICKETS MUST BE PURCHASED BEFOREHAND AND ONLINE!!!
