

Bellevue Elks Track Invite

Artificial Turf Field: No gum, food, candy, or seeds, allowed. No track spikes worn on turf area.

Warm-up Areas:

Athletes will need to warm up on the track if in their spikes. Any warming up on field will require shoes with no spikes.

Also, cones will limit the warm up area on the turf field to the sidelines and end zones only. Athletes getting ready to compete need to warm up outside the coned off area. Thank you!!

The north asphalt area by the pole vault area will be available also after the pole vault event is finished.

Team Camps: Will not be permitted on the field or inside the track area. Both the home and visitor stands can be used for team locations. Team camps/tents can also be constructed outside of the track fence on the north end (houses and scoreboard end)

Team camps will not be allowed under the home stadium stands. Please help police and direct your kids/team to the appropriate areas.

Spectators: All parents, family, friends, & spectators are expected to watch all track events from outside of the track & fence line. Only workers, coaches, officials, administrators, & athletes are permitted inside the fence/track area. This has been a problem as some field event areas (long jump, high jump & pole vault) are inside the track, and spectators fill the need to view the action right next to the event. Again, please help by informing your athletes & parents of our expectation. Thank you!

Team Buses: Will be parked on the north parking lot as in the past. Do not use the main high school parking lot. All buses will be asked and directed to the north parking lot by the discus area off of Aigler Blvd.

Thank you for your understanding and help!!
