

Scoring a Forfeit in The Wrestling Tourney

1. In **Scoring**, go to **User Defined** and put in **Forfeit**. Give it a 2 letter abbreviation (I used Ff), and put in 2.00 for **User Defined Points**. This gives the winner his bonus points.

Team Scoring

Bonus Points

Decision:	0.00	Default:	2.00
Major Dec:	1.00	DQ:	2.00
Tech Fall:	1.50	Forfeit:	2.00
Fall:	2.00		

User Defined: Forfeit

User Defined Abbrv: Ff

User Defined Pts: 2.00

<input checked="" type="checkbox"/> Award 1st Round Bonus Pts	<input type="checkbox"/> Double Bonus Points After Bye
	<input type="checkbox"/> Treat byes as forfeits

Ok Cancel

2. In **Enter Results** (I show **Change Results** because the match score had already been entered) there will be a new "User Defined" button. This will count a Win for the Winner and a Loss for the wrestler that forfeits.
