All North Wrestling Tournament Coaches/Participants

This letter is to inform you of the facilities and resources that will be available to you by the Dublin Jerome Athlete Health Care program during the All North Wrestling Tournament.

The athletic training staff will be available to provide participants with first aid and emergency coverage throughout the tournament. **Our athletic trainers will be happy to assist you with routine treatments or taping procedures for your athletes with proper documentation in compliance with Ohio Law.** The coach/athlete should provide all necessary taping supplies and documentation from your athletic trainer or team physician. Our physicians on hand will provide care for acute injuries as needed in collaboration with our Athlete Health Care staff.

Each Mat table will have routine blood supplies available for use during your matches. Coaches should help provide care and assist with clean up as necessary. Athletic trainers will assist with blood care if needed, but understand that with 4 mats running simultaneously, the coach may need to initiate and/or provide care without immediate assistance.

We are looking forward to a Great and Safe day of wrestling ! Please contact me if you have any questions or concerns before or during the tournament.

Sincerely,

Ric Fail, AT
Head Athletic Trainer
