Baumspage Dual Team Wrestling Application
12-04-21

Just a reminder that **Baumspage** has **Dual Team Tournament Wrestling App** that interfaces with the **Baumspage Online Entry System**. If you are hosting a dual tournament and want to post results it is available at **a reduced fee of $30 per tournament.**

1. For those tournaments electing to use a **Dual Team Format**, we understand that dual tournaments can be hosted without using online entries and seeding.
   A. However to post results and publicize the wrestlers, someone will need to manually enter the names, teams, and match results into whatever program or app is used.
   B. In 2019, we adapted the **OHSAA Dual Team Tournament Wrestling App** that had been used for all OHSAA dual tournaments for regular-season matches.
2. The **Baumspage Dual Tournament Manager** utilizes the familiar processes and features that make the **Bracket** and **Pool Tournaments** easy to use.
   A. The manager can set up the tournament on **baumspage** in less than 5 minutes and post the tournament information.
   B. Coaches will submit their rosters with extras online as they've always done.
      i. The dual tournament template will include varsity rosters with an option to submit extras by weight class.
      ii. The weigh-in sheets will include all wrestlers submitted by weight class with extras listed immediately below the Varsity wrestlers.
   C. Pairings for the duals can be set as needed into brackets, round robins, or several pools with finals.
   D. Changing names is a simple click-and-replace as long as the names are on the roster.
      i. Entering match results is similar to the **Baumspage Mobile App Bracket or Pool Tournaments** so the learning curve is minimal.
      ii. Match score sheet options include one page with both teams listed or individual match sheets like those used in our bracket and pool tournaments.
   E. Complete individual match results and team scores can be posted as the tournament progresses or when all matches have been concluded.
3. Click **Setup Matches** to view sample program pages for multiple formats and options.
   A. When the entry window closes, the manager can download the rosters, print weigh-in, check-in sheets, and set up the pairings quickly.
   B. Multiple matches can be scored simultaneously.
4. Results are entered with a few mouse clicks and posted automatically if the tournament manager has internet access and is logged in to his/her account on baumspage.
   A. If not logged in, the complete results can be posted when finished.

Please call, text, or send e-mail if you need anything!   Thanks.
